From our entry level postage meter to our newest Connect+™ Customer Communication Series that prints in COLOR, Pitney Bowes has the equipment to handle all your mailing needs.

Pitney Bowes Solutions

Mail Finishing

The Connect+™ Series is the first mailing system that allows flexible, high-resolution color printing across the top of the envelope, empowering the organization to maximize the power of the mail. This flexibility applies to all mailing jobs – including transactional mail, promotional and solicitation campaigns – because the Connect+™ Series can print messages on the front or back of the mail piece – leveraging valuable ‘real estate’ available on the mail piece.

Customer Communication Management

Were you aware that many nonprofit organizations can receive special postage rates from the USPS?

Pitney Bowes has products that help you qualify for those postal discounts, while making it easier to get your message out.

Our line of folders and folder/inserters will handle the content preparation tasks swiftly and easily, while our line of addressing printers and color printers will increase the open ability of your mail and increase the impact of the contents inside.

Contact Information

Pitney Bowes is proud to be a preferred provider of Mail and Document management solutions to the Diocese of Rockville Centre and to offer Strategic Pricing for all of our products and services.
